Actuals:

Communities of Practice

Communities of Practice: *Transforming Hispanic-Serving Institutions for Equity and Justice—Book Discussion*, Dr. Gina Garcia

Four Book Discussion meetings, October, 2023: 10-12 attendees per meeting

Dr. Gina Garcia: day of lectures and workshops: *Creating a Servingness Culture at SRJC*

Morning lectures: 200 attendees

Afternoon workshop: 50 attendees

Morning Sessions

The morning lectures attendees were widely diverse. There were deans, numerous faculty members, managers, and staff. They all seemed to be learning from Dr. Garcia, and many people asked questions at the end of the presentation.

About 10-12 different disciplines were represented, ranging from social sciences to mathematics.

Afternoon workshops

Faculty, managers, and staff were assigned to work in small groups and we were giving specific tasks pertinent to SRJC. At the end of the small group discussion people presented the results of their discussions.

This workshop was an eye opening because we realized that HSI is not mentioned in the Institution's Mission, it is not included in the college's webpage, and many people still not know the Servingness of the grant.
